

Som redan några märkt. Ledsen för detta, inte mycket jag kan göra. Hoppas ni kan framföra ursäkterna från BBO till spelarna.

Hälsar  
Martin

Subject: System instability today - ongoing

Hi all,

Just a quick note to let you know that BBO is having system issues at the moment. Symptoms are:

- lists of tournaments fail to load, sporadically
- logging in can be slow -- some users need several attempts to connect
- intermittent database errors in various side tools and utilities

Our whole tech team is working on this. We thought we fixed it last week but apparently it was not enough.

We're doing our best to get back to normal as soon as possible. Meanwhile the site works, but various actions needs multiple attempts to succeed.
